[jquery, autocomplete] **jquery autocomplete** not working

```
$("#seed_one").autocomplete(data);
```

Question

Answer

[jquery, autocomplete, jquery-autocomplete] **jQuery autocomplete** customization

```
.data("autocomplete")._renderItem = function(ul, item) {
  var v = item.value;
  return $("- </li>")
    .data("item.autocomplete", item)
    .append(
      "<a>"
      + v.substr(0, v.indexOf(' ') + 1)
      + "</span>"
      + " " + v.substr(v.indexOf(' ') + 2)
      + "</a>"
    )
    .appendTo(ul);
};

```

[jquery, autocomplete] **jQuery UI autocomplete**: Getting reference to the ul

```
$("#the-standards").autocomplete({ appendTo: "#someStandardDiv" });
$("#your-special-autocomplete").autocomplete({ appendTo: "#someSpecialDiv" });
```

[jquery, autocomplete] **jQuery autocomplete** trigger button on select

```
$("#txtSearch").autocomplete({
  source: '/dictionnaire/autocomplete',
  select: function(event, item) {
    if (event.keyCode == 13){
```
